Coronavirus

Help stop the Spread

Follow these six simple steps to protect yourself and those around you from the Coronavirus

What YOU need to do

- 1. Wash your hands regularly**
Wash hands for at least 20 seconds with soap and hot water or use a sanitising gel. Do this after using the toilet, touching communal items such as the kettle and before and after eating.
- 2. Don't touch your face**
Avoid touching your eyes, nose or mouth with your hands. If you need to touch your face use a tissue. Bin the tissue after contact with your eyes, nose or mouth. Wash your hands after contact with your face.
- 3. Use a tissue**
Always try to cough or sneeze into a clean tissue then bin it immediately.
- 4. Don't spray**
If you feel the need to cough or sneeze and have no tissue to hand, use the crook of your elbow to stop bacteria spreading through the air.
- 5. Regularly refresh**
Do not rely solely on soap and water or hand sanitiser. Use antibacterial surface wipes to clean high traffic areas such as kitchen counters and door handles.
- 6. Isolate**
Do not put you or others around you at risk. If you are experiencing symptoms of Coronavirus, do not go to work, do not go out, remain indoors and contact NHS 24 by calling 111 or online at 111.nhs.uk.

Signs and symptoms of Coronavirus

Coronavirus

Raise awareness and provide simple measures to reduce the spread of the Coronavirus

With news of the Coronavirus (COVID-19) continuing to make headlines around the world, the need to tackle the spread of this deadly virus is greater than ever. Some groups of people are more susceptible to the complications of Coronavirus than others, especially older people (70+), people with certain medical conditions (asthma, diabetes, underlying poor health or weakened immune system) and pregnant women.

Signs / Symptoms	How it Spreads	Prevention	Taking Action	Individual	Environmental	Organisational
Common symptoms Fever/high temperature - a fever is when your body temperature is at 38°C or higher Coughing - a persistent dry cough Respiratory issues - shortness of breath, difficulty breathing	It spreads in two main ways: Directly from person-to-person by coughing or sneezing which allows respiratory droplets to spread to another person's mouth or nose. Indirectly, by touching a surface that has been touched by an infected person and then touching your face.	Prevention If you feel ill, stay at home, with no visitors. If you have a fever, stay at home. If you have a cough or sneeze, stay at home. If you have a fever, stay at home. If you have a cough or sneeze, stay at home.	Taking Action A business can attempt to minimise the risk of the Coronavirus within their work environment by taking action on these issues. Individual Behaviour Actions taken at the level of each individual to minimise the spread of the Coronavirus. Environmental Actions taken within the workplace environment to reduce the spread of the Coronavirus. Organisational Actions taken to modify behaviour and practices in the workplace to help reduce the spread of Coronavirus.	Individual 1. Do not touch your face. 2. Wash your hands regularly. 3. Use a tissue to cover your nose and mouth when coughing or sneezing. If you do not have a tissue, use your elbow. 4. If you have a fever, stay at home. 5. If you have a cough or sneeze, stay at home. 6. If you have a fever, stay at home. 7. If you have a cough or sneeze, stay at home.	Environmental 1. Display signs to encourage staff and visitors to follow the guidelines. 2. Ensure that the workplace is clean and hygienic. 3. Use antibacterial surface wipes to clean high traffic areas. 4. Use hand sanitiser in the workplace. 5. Use a tissue to cover your nose and mouth when coughing or sneezing. 6. Use a tissue to cover your nose and mouth when coughing or sneezing.	Organisational 1. Have awareness among staff of the signs and symptoms of the Coronavirus and the need for individuals to stay at home if they develop symptoms. 2. Consider how best to manage people working in close contact. 3. Consider how best to manage people working in close contact. 4. Consider how best to manage people working in close contact. 5. Consider how best to manage people working in close contact.

CORONAVIRUS INFORMATION

In response to the recent outbreak of the Coronavirus (COVID - 19) we ask all visitors to self-screen before entering the building, to help lessen the spread of the virus.

Do not enter if:

1. You have signs of a fever or a high temperature (above 38°C)
2. You have a persistent cough or respiratory problems
3. You have had contact with any possible source of the virus

If you have met any of the above criteria please return home and contact NHS 111 for advice

If you are safe to enter please do so and follow the guidance below:

1. Wash your hands regularly and thoroughly with soap and water or alcohol based hand sanitiser
2. Avoid touching your face with your hands
3. If you need to cough or sneeze, use a tissue and bin after use
4. Where possible avoid contact with vulnerable individuals such as the elderly and those with underlying health conditions

Door Entry

Contactless Access Control and Door Entry Solutions

A range of COVID-19 door entry systems to keep you and your employees protected are available for when hygiene really matters .

Door Aid - Open door levers or pull handles with your elbow or lower arm.

Dorgard - Keep your fire doors open in a safe manner, dorgard auto-releases when fire alarm activates.

"Handsfree" Exit Buttons
Many options available please contact our helpdesk to arrange a quote.

Video Entry - Speak and see visitors before allowing entry. Contact the helpdesk for more information.

Thermal Cameras -

Safely monitor temperature of those in your premises. Demo and prices on request.

SAFER, FASTER, SMARTER

Temperature Screening Thermal Solutions

1s Measurement
 AI Algorithm

Contact-Free
 Multi-Person Detection

Density Control & Flow Solution

Easily manage the number of people within your premises at any one time.

Control the flow of foot traffic and avoid overcrowding within your property with clear signage at all customer entrances.

THE SYSTEM

How does it work?

Specialist people-counting cameras watch entrances and maintain a tally of how many people are in your store at all times.

THIS ALLOWS BUSINESS OWNERS TO:

- ✓ Limit the number of people within your store
- ✓ Display clear signage at entrances for visitors
- ✓ Avoid overcrowding and safeguard staff

Re-open with full control of traffic and confidence in your safety measures.

OUR SOLUTIONS

Fast deployment, cost effective and scalable from small shops to large shopping centres

Depending on your requirements and property, there are a number of scalable solutions available for you to rapidly deploy and begin controlling density and flow of customer traffic.

SMALL SHOP

Single Door Camera Standalone

- ✓ Ideal for small shops
- ✓ Fast deployment - one camera and monitor needed
- ✓ Basic data shows number of people in-store
- ✓ Realtime alert and voice prompt from cameras when threshold number is reached

RETAIL SHOP

Single Door with Customer Display

- ✓ Ideal for retail shops with higher footfall
- ✓ User friendly, informative display shows customers how many people are currently in-store and maximum number accepted with green and red warning signs
- ✓ Ideal monitor placement near entrance so customers can identify the display and safety measures clearly

MULTI-ENTRANCE RETAIL

Multi Door with Customer Display

- ✓ Ideal for larger shops with multiple entrances/exits
- ✓ Smart NVR recorder calculates the total number of customers in-store across multiple entrances
- ✓ Monitors display intuitive realtime data with warning signs for customers

MULTIPLE LOCATIONS

Multi Door and Multiple Location

- ✓ Ideal for larger sites with multiple entrances/exits as well as multiple locations
- ✓ HikCentral software calculates total figures and can display them across all sites accurately
- ✓ Whole system can be monitored centrally via HikCentral software, with reports for further analysis available

Temperature Screening Thermal Cameras

SAFER, FASTER, SMARTER

With advanced equipment comes a breakthrough in thermal CCTV systems. Working with industry leader Hikvision, we can now offer Temperature Screening systems to accurately detect elevated body temperatures, even in crowds, with an incredible accuracy of up to $\pm 0.3^{\circ}\text{C}$.

COVID-19 PRELIMINARY SCREENING

Preliminary screening during the Covid-19 outbreak can be an extremely effective tool to protect your business from the virus. Working with Hikvision, we are committed to keeping you safe in times of crisis.

THE SYSTEM

How does it work?

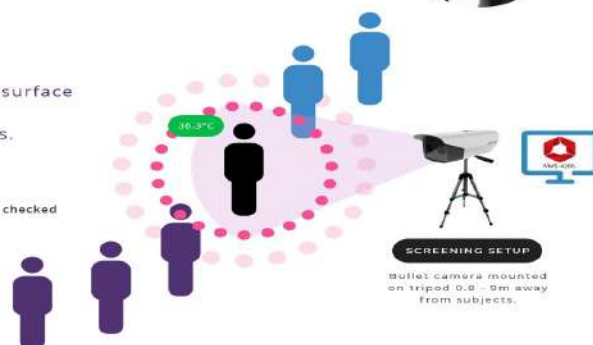

The system is designed to detect elevated skin-surface temperatures, and can thus be used for rapid and preliminary screening at building entrances.

WITHIN SECONDS, SUBJECTS ARE:

- ✓ Captured by the thermal camera
- ✓ Skin-surface temperature checked
- ✓ Elevated temperatures detected
- ✓ Operators notified

Wish to learn more?

Contact our experts and we will happily walk you through your immediate options for fever screening.

OUR SOLUTIONS

Find the best temperature screening solution for your application

1 Handheld camera
+ Tripod
+ iVMS-4200 or Hik Thermal
(Mobile App)

ACCURACY: $\pm 0.5^{\circ}\text{C}$

PERFECTLY PORTABLE SCREENING

With a Wi-Fi module, the handheld camera can connect to a PC or a smartphone to notify operators when a person with an elevated temperature passes by. It also features a built-in speaker for audio alarms.

- ✓ Handheld Screening
- ✓ Connect to PC or Smartphone
- ✓ Hik Thermal Mobile App
- ✓ Audible Alarm

HIGHER RESOLUTION - GREATER ACCURACY

With a mounted Turret or Bullet camera, you gain greater flexibility, resolution and range to your screening. The cameras also feature a built-in AI detection to reduce false alarms from other heat sources.

- ✓ Turret or Bullet Camera
- ✓ Connects to Laptop
- ✓ AI Detection to reduce false alarms
- ✓ Greater flexibility

2 Turret/Bullet camera
+ Tripod/Bracket
+ iVMS-4200
+ Laptop

ACCURACY: $\pm 0.5^{\circ}\text{C}$

3 Turret/Bullet camera
+ Blackbody Calibrator
+ Tripod/Bracket
+ iVMS-4200
+ Laptop

ACCURACY: $\pm 0.3^{\circ}\text{C}$

THE MOST ACCURATE SOLUTION AT $\pm 0.3^{\circ}\text{C}$

By enhancing the solution with a blackbody calibrator, this solution has increased temperature measurement accuracy from $\pm 0.5^{\circ}\text{C}$ to an incredible $\pm 0.3^{\circ}\text{C}$, whilst also including AI detected to reduce false alarms.

- ✓ Increased accuracy to $\pm 0.3^{\circ}\text{C}$
- ✓ Connects to Laptop
- ✓ Inbuilt AI Detection
- ✓ Blackbox Calibrator included

NEW CONTACTLESS DOORWAY ACCESS

With a Thermographic camera built-in to the panel, this contactless access control system delivers efficient temperature measurement alongside robust door entry. It also includes face mask detection, multiple authentication modes as well as a highly customisable screen with voice prompts.

- ✓ Touch-free Access Control
- ✓ Connects to iVMS or HikCentral
- ✓ Face Mask detection included
- ✓ Accurate to $\pm 0.5^{\circ}\text{C}$

4 Touch-free Access
Control System
+ Optional floor stand
+ iVMS-4200
or HikCentral

ACCURACY: $\pm 0.5^{\circ}\text{C}$

Other services we offer

SUPPORT TEAM

Along with what you know us for, we can offer a range of services as listed below . For further information on any of our services, please contact our team for immediate attention.

Fire Fighting Equipment -Maintenance of all types of fire extinguishers and ancillaries.

CCTV - Installation and maintenance.

Locksmithing - Master locksmith service available
